

PreserveWine Demo

Dissemination

WHAT

Labo demonstration of the Pressure Change Technology (PCT)* module and tasting of PCT-treated wines.

* The Pressure Change Technology is a non-thermal process to replace use of sulphites and other chemical preservatives. This technology is being developed in the framework of the European Union's Seventh Framework Programme for research, technological development and demonstration.

WHEN and WHERE

On 10th March 2015 in Bordeaux, France.

- **10h:** Labo Demonstration at Institut des Sciences de la Vigne et du Vin Bordeaux Aquitaine 33882, Villenave d'Ornon
- **11h30:** transfer to Château Guiraud
- **12h30:** Wine Tasting of PCT –treated wines and finger food at Château Guiraud, 33210 Sauternes

FOR WHOM

Winemakers, oenologists, scientist and researchers in the wine technology field, providers of enological practices, manager of wine companies, quality&innovation directors and anybody willing to learn more about this technology.

HOW TO APPLY

The participation is free.
